

JASON LEE

(240) 302-0842 | jasonlee131045@gmail.com | [linkedin.com/in/lee-s-jason](https://www.linkedin.com/in/lee-s-jason) | github.com/jasonslee07 | U.S. Citizen | College Park, MD

EDUCATION

University of Maryland | College Park, MD

May 2028 (Expected)

Bachelor of Science in Computer Science | Minor in Mathematics

GPA: 3.97 / 4.00

Relevant Coursework: Object-Oriented Programming I & II (Java), Data Structures, Algorithms, Computer Systems (C & Assembly), Organization of Programming Languages (OCaml & Rust), Discrete Structures, Linear Algebra, Multivariable Calculus

SKILLS

Programming Languages: Python, Java, C; familiar with C++, SQL, JavaScript, TypeScript, HTML, CSS, MATLAB, Rust, OCaml, Assembly

Web Frameworks/Libraries: React, Node.js, Tailwind CSS, Flask

Developer Tools: Claude, VSCode, Linux, Git, GitHub, Firebase, Jira, Power Automate, Copilot Studio, Figma, Eclipse, Twilio, Ngrok

WORK EXPERIENCE

American Operator | Austin, TX

Jun 2026 - Present

Software Engineer Intern

- Built a modular LLM agent integrating 5+ APIs (HubSpot, calendar, web, call transcripts) to auto-generate research briefs and tear sheets
- Built a full-stack TypeScript KPI dashboard (React, serverless API, Postgres) replacing a manual weekly spreadsheet for portfolio ops
- Built typed serverless APIs (Drizzle ORM, Neon Postgres, Zod) computing trailing averages, goal variance, and week-over-week change

Easy Dynamics | McLean, VA

Jan 2026

Software Engineer Intern

- Designed and built an IT service desk agent in Copilot Studio, trained on SharePoint libraries, to resolve common employee IT questions
- Created Power Automate flows and OAuth 2.0 (3LO) custom connectors to implement automated ticket creation to Jira's API
- Developed an Azure Blob to store Jira tickets, used PowerShell scripting to automate uploading ticket JSON contents and attachments
- Achieved a 27% automated resolution rate and reduced average response time from 24 hours to under 10 seconds

First-Year Innovation & Research Experience | College Park, MD

Aug 2025 - Present

Quantum ML Undergraduate Researcher

- Researched quantum Wasserstein GANs for high-resolution image generation, evaluating FRQI states and task-specific inductive biases
- Applied the ImageQGANS codebase to replicate published results, cross-referencing state vector simulations with generated figures

Panda Programmer | Gaithersburg, MD

May 2024 - Aug 2024

Computer Science Instructor

- Mentored 50+ K-8 students in Scratch, Python, JavaScript, HTML, CSS, and robotics through hands-on programming projects
- Presented lessons on data structures, control flow, event-driven processing, serial and parallel execution, and animation

PROJECTS

Sell4Impact

- Developed a React (TypeScript) dorm marketplace with Tailwind CSS, Firebase Auth & Firestore to deliver real-time data synchronization
- Built the Client and Vendor roles with custom dashboards, enabling users to manage dynamic inventory, track orders, and edit profiles
- Implemented an active cart system, live search filtering, and Firebase Storage integration for secure user image upload handling

Gotcha!

- Built a real-time shoplifting detection app using React (TypeScript), Flask, and Roboflow to analyze video and flag suspicious behavior
- Integrated an ML vision model with a sliding window heuristic to analyze consecutive frames, preventing false positive threat alerts
- Engineered a synchronized API pipeline (Gemini, ElevenLabs, Twilio) via ngrok to trigger automated, descriptive emergency phone calls

Chat Messenger

- Built a multi-user chat application using GUI and network programming principles, enabling real-time communication between clients
- Implemented multithreading to enable the server to listen to new connections and broadcast messages simultaneously

LEADERSHIP

Scouting America

May 2015 – Aug 2025

Eagle Scout & Troop President

- Led 70+ Scouts, administered monthly campouts (200+ attendees), and organized week-long summer camps (1,000+ attendees)
- Mentored 30+ Scout leadership team, organized annual food drives (60,000+ lbs), and recruited in Scouting's national honor society

Kids are Scientists Too

Sep 2022 – May 2025

Instructor & Treasurer

- Instructed 60+ 4th-5th graders through 30+ science experiments, mentored 100+ club members as teachers, and organized curricula
- Managed weekly finances and payments, created and presented lessons, and coordinated time logistics and transportation
